## CAREER OBJECTIVE

---

As a computer science student with a passion for web development, I have developed interactive and user-friendly webpages. With that experience, I am seeking a challenging role as a web developer. I am confident that my technical skills and analytical mindset will enable me to contribute to the organization's growth while providing me with opportunities for professional development.

## EDUCATION

---

<b>Chadalawada Ramanamma Engineering College.</b>	Tirupati
B.Tech Computer Science Engineering (7.11CGPA)	May 2023
<b>AP-Model Jr. College.</b>	Kurnool
Intermediate MPC (6.9CGPA)	Jul 2019

## WORK EXPERIENCE

---

### 1. Let's Grow More Remote

*Web Developer Intern* Dec 2022 - Jan 2023

- Built user friendly interactive webpages with the understanding of UX and knowledge of Html, CSS, Tailwind CSS.
- Created real time Login and signup forms for user requirement applications.
- Prepared well designed, testable and efficient code by using best software development practices.

### 2. Oasis Infobyte Remote

*Web Developer Intern* Feb 2023 - May 2023

- Developed and implemented responsive website designs using HTML5, CSS3, and JavaScript.
- Completed various tasks to determine the basic understanding of front-end with HTML, CSS, JavaScript and DOM manipulation.
- Collaborated with a team of developers to troubleshoot and resolve coding issues.

## PORTFOLIO

---

- Developed personal branding web-page by using technologies like HTML5, CSS and TAILWIND CSS.
- Designed and developed different responsive web page sections to navigate through my portfolio.
- Created a comprehensive, visually stunning and user-friendly web page highlighting my expertise in front-end development.
